

Covid-19 Protocols

- We require that all students have travel insurance that covers them for Covid-19.
Students /Groups must organise their own travel insurance.
- What to do should a student receive a positive test result during their stay at ATC.
 1. Students must notify their Group Leader of a positive test result
 2. Group Leaders must then notify ATC of the name of the student with a positive test result
 3. All communications regarding positive test results must be communicated to ATC. ATC will then notify the host families, teachers etc.
 4. No student should notify their Group of their positive test result within their Group's what's app group, or by email or by text message. All medical information should be respected and shared with their Group Leaders & immediate family members only such as the student(s) Parents/Guardians.
 5. No student should notify their host family directly of their positive test result. This information must be given to the host family by ATC staff only.
- What to do should a student / group leader receive a positive test result once they return to their home country
 1. Students must notify their Group Leader of their positive test result
 2. Group Leaders must then notify ATC of the name of the student or the name of their leader with the positive test result
 3. All communications regarding positive test results must be communicated to ATC. ATC will then notify the host families /teachers etc.

We hope you enjoy your stay at ATC and we thank you for your co-operation.
